**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I have been a residential consumer of Sonic, an ISP that would be adversely impacted (and me) by the roll back. I switched to Comcast for a brief period when Sonic didnt offer Cable, and switched back to them with a slower DSL line just for their excellent service. I am one of the first neighborhoods to benefit from Fiber and I love it, its the future, and ISPs are more than a utility, the service they provide around their product is critical to success. All the major ISPs are also offered to me but offer a worse product for more money. Dont limit customer choice! It goes against the American economy by removing customers abilities to have a check and balance against bad products and services proliferated by large organizations that benefit from special treatment by the government.
